VISION

We believe William Blake gifted us this gem of a verse to open our eyes, and see. A verse from the beginning of the Universe, a verse that is now doing the rounds on earth at a time when humankind's greatest challenge is:

"The Future"

So you are with us? For we stand on the threshold in an almost poetic Manner, serenading a new millennium full of contentious issues, alongside scientific breakthrough and exciting futuristic views.

It is with earnest desire we look forward to a safer and saner earth, with the help of its people we mould. We wish we all prevail over these times, our most wanting hours. We have our hope pinned for the best.

Our faith should sustain us and carry us safely in to the future. It is therefore we zest and pride we say : We are CC to the world, for our students we are their world.

Tomorrow will come only

If we give a chance for it, today. Columbia College is a progeny to the concept of education and benefits a place of critical import in the world around. Columbia College popularly known as CCN to be more precise is a wise choice you make if tomorrow is on your mind.

CHAIRMAN

S.K. Subramanya Reddy

Chairman's Desk

Friends, every child when born, I believe, is a peace loving child. And it is we who probably spoil his nature, it is we who take him to the wrong direction from a peace-loving human being to a human being who starts believing in conflicts believing in hatred and so on and so forth. And therefore education is the means which will have to come in to correct the situation. I remember the famous sculptor of Michelangelo. He created a beautiful statue, and a friend of his said "Out of a piece of stone you have created this beautiful statue.

"The sculptor said" This statue was already within the stone. I have not created it. All I have done is, I have chiseled off the undersirable pieces which were around the statue and which were masking the statue." I think friends, in the same way, a child who is born by the kindness of god is a peace loving child. In the name of education, we have started believing in stuffing him with more and more information, rather than chiseling him off to make sure he remains a peace loving person. If we give that holistic shift to the educational paradigm, we believe we'll be able to do much better. And that is the aim of Srinidhi Education Trust

Facilities

Faculty :

The Faculty of Columbia Group of Institution offers a range of undergraduate, postgraduate and doctorate persons research courses in a dynamic student-centered learning environment. It has established collaborative research programs with various national and international institutions.

Columbia Group of Institutions appointed M.Sc for PG and as well as P.hD faculties for teaching and appointed faculties from various states.

Laboratories :

We have dedicated and well equipped labs in all the disciplines taught at Columbia Group of Institution also consist of various well equipped high-tech laboratories like the nutrition lab, nursing arts lab, maternal and child health lab and the community lab, these labs have specialized simulation models such as the CPR manikin, simulation arm for injection demonstration and simulation model for mechanism of labour and physiotherapy lab.

Clinical Training :

HOSPITALS :

1. Columbia Asia Hospital, India
2. Cloud 9 Hospital, India
3. Sagar Hospital, Bengaluru, India
4. Svastha Hospital, Bengaluru, India

Healthcare today has reached a complexity that challenges all providers,

- Leadership and frontline healthcare workers.
- To meet the challenge of Healthcare our college has tie-ups with well advanced high tech Multispecialty hospitals. As per the University requirement.
- Our students are posted in all areas with the goal of providing the highest level of care to each patient served.
- We provide practice training in the areas of medicine, surgery, psychiatry, paediatrics, obstetrics and gynaecology and community rehabilitation.

Facilities

Library

Our library has a comprehensive collection of information sources in all subjects to meet the present and future information needs of the students. It provides A dedicated course collection as prescribed by the University. We also Subscribe to various periodicals like journals, both Indian and Foreign. Learning volumes on CD's are also stacked for individual and mass viewing. Our computer lab is also well equipped with internet for e-references.

It has a reading room with lots of books, magazines, newspaper etc, The students are allowed to borrow two books at a time for a period of 15 days. Since books required for an academic year are available in multiple Copies, the students do not have to purchase these books on their own. The learning community is well satisfied with extremely rich and diverse Range of library resource

Hostel Facility

- Ranging free environment.
- Hostel life plays an important role in shaping one's individuality.
- A hostel Inmate imbibes lot of responsibility because of hostel environment and It also promotes independent thinking.
- Separate hostels for boys and girls.
- With necessary and efficient security, ensure the safe stay for outstation Students.
- Hostel inmates get a cozy and friendly environment in their Room, sharing it with fellow students who hail from all parts of the country and abroad, Inter-hostel and intra- hostel recreational activities keep the students engaged during leisure.
- Sports facilities, residing room equipped qith newspapers and magazines,
- Internet facilities and access to televisions are available in the hostel premises.
